The Book Whisperer Donalyn Miller, 2009-03-16 Turn any student into a bookworm with a few easy and practical strategies Donalyn Miller says she has yet to meet a child she can't turn into a reader. No matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller's unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you'll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they've finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works The Book Whisperer includes a dynamite list of recommended kid lit that helps parents and teachers find the books that students really like to read.

Why I Love Homeschooling Mary Jo Tate, Tina Nahid, Kathy Oaks, 2020-07-04 Because of the COVID-19 pandemic, millions of families worldwide have been thrust into schooling remotely at home. Some parents look forward to sending their kids back to school, but others have found they prefer schooling at home. They've noticed things like, My child has learned more at home with me in the last 2 months than in the past 2 years at school! Or, I kind of like spending so much time with my kids and learning alongside them. Many parents are considering continuing homeschooling beyond the pandemic, and this book is here to help them make an informed decision about their children's education. Homeschooling is not about trying to reproduce a school environment at home. It's not hours and hours sitting at a desk with a parent or in front of an online class. Homeschooling is about creating an environment outside of the school structure that fosters a love of learning, creativity, family closeness, and flexibility. There is no one size that fits all in homeschooling; every family is different, and approaches homeschooling and parenting in their own unique way. In this book, 24 seasoned homeschooling families share their experiences. The authors include both religious and secular homeschooling parents from all walks of life. They represent a variety of homeschooling styles (from self-directed learning/unschooling to more formal approaches), abilities and disabilities, marital statuses, educational achievements, job statuses, races, and socioeconomic levels. The authors have

children of all ages, from babies, preschoolers, and kindergarteners, to students in elementary school, middle school, or high school. And some have children who are now adults. They discuss what they love about homeschooling and also the challenges they've overcome. We hope that this book will inspire and encourage those who are considering homeschooling, as well as those who are already on their homeschooling journey. And we hope it will expand your ideas about the concept of education, and what's possible for yourselves and your children.
