Secret Sunderland Marie Gardiner, 2019-03-15 Explore the secret history of Sunderland through a fascinating selection of stories, facts and photographs.

Make Love the Bruce Campbell Way Bruce Campbell, 2015-10-01 What you're reading right now is known as the cover copy, or "flap copy." This is where the 84,951 words of my latest book are cooked down to 350 words or less to capture your imagination/download. I pondered how to do that. Should I cut to the chase and reveal pivotal plot points like the one at the end of the book where the little girl on crutches points an accusing finger and shouts, the killer is Mr. Porter? No. I have too much respect for you as an intelligent consumer to attempt such an obvious ruse. But let's not play games here. You clicked your way to this page, so you either: A. Know who I am. B. Like the cool smoking jacket I'm wearing on the cover. Or: C. Thought this was a secret link to Ashley Madison. Is it a sequel to my autobiography *If Chins Could Kill: Confessions of a B Movie Actor*? Sadly, no, which made it much harder to write. Is it an autobiographical novel? Yes. I am the lead character in the story (coincidentally an actor), and I am a real person, and everything in the book actually happened - except for the stuff that didn't. The action revolves around my preparations for a pivotal role in the A-list relationship film, *Let's Make Love!* My Homeric attempt to break through the glass ceiling of B-grade genre fair is hampered by a vengeful studio executive and a production that becomes infected by something called the B-movie virus - symptoms of which include excessive use of cheesy special effects, slapstick, and projectile vomiting. From a violent fistfight with a Buddhist to a life-altering stint in federal prison, this novel has it all. And if the 84,951 words are too time-consuming, there are lots and lots of cool graphics - all of which have been upgraded to vibrant color since the first publication. I hope you enjoy the book - and if you learn anything at all about making love, please share it with me! Regards, Bruce Go Ahead and Call Me Ash Campbell

Graphic Design Portfolio-builder, 2006 Self-paced, self-guided instruction is all well and good, but at the end of the day, most people could use a little feedback--especially when they're ready to build a design portfolio and hit the job market. Not to worry, this book provides actual instructor feedback along with the self-paced, individualized instruction in Photoshop and Illustrator that designers need. Written by the faculty of New York-based, accredited online design school Sessions.edu, the book uses the school's trademark project-based curriculum to teach essential design concepts with Photoshop and Illustrator. After a brief intro to the world of graphic design, Sessions instructors provide quick refresher course chapters on the two programs. Then, armed with Photoshop and Illustrator basics, readers tackle a series of projects that stretch their imagination and creative muscles involving logo design, magazine layouts, illustrations, poster design, digital imaging, book cover design, packaging design, and more. Best of all, readers are encouraged to post their work for expert feedback from Session.edu faculty on Studio Sessions, the custom Web site created for this book.

Sunderland, Industrial Giant Marie Gardiner, 2017-11-24 Sunderland was once one of Britain's industrial giants. Famous for its shipyards, mines and glass-making, it thrived at a time when its country needed it most. After the Second World War the town saw incredible change, as the heavy industry that seemed so permanent, faded and died. How do you cope with the loss of centuries of working tradition? These are the stories of the people who worked through this evolution,

watched their town change around them and become a city – the people who saw the end of one era and the beginning of a challenging new one.

High on Design Robert Klanten, Santiago Rodriguez Tarditi, Gestalten, 2020 Today, weed is en vogue and has evolved into a good-looking business. High on Design showcases the new brands, designs and creators behind this revolution. While cannabis is a recreational drug still strongly associated with Western subculture, it has recently become a huge industry. Over the past few years, consuming the herb and using its derivatives have become legal in several countries, and a wave of entrepreneurs has come through, looking to generate and bank on a new generation of consumers. Through insightful texts, High on Design reflects on the novel aesthetics, people, and trends of contemporary cannabis culture, and provides a wider view of the phenomenon. Addiction, crime, science, the marketing of weed as a booster of creativity and a medical aid, and the use of hemp in clothing are all considered.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.
