The Paper Solution Lisa Woodruff, 2022-01-25 From the Marie Kondo of paper comes a simple and accessible guide to paper management. Americans are drowning in paper. We keep stacks of it on the kitchen counter, stash it in drawers, and store file cabinets full of documents that we never even look at. Studies show that fully 85 percent of the paper in our lives can be tossed-but which 85 percent? And how do we organize and manage the 15 percent that remains? With *The Paper Solution*, founder of Organize365 Lisa Woodruff delivers a proven, step-by-step guide for what to shred, what to save, and how to sort what's left behind. With her method, you'll learn: • What documents you must absolutely hold on to • Which papers you can dispose of today • How to ditch your bulky filing cabinets and make your vital documents accessible and portable And at the heart of it all is the Sunday Basket: a box that sits on your counter and corrals those stray bills, forms,

coupons, and scraps into an easy-to-use paper-management system. The Sunday Basket will become your new weekly habit--one that leads to less paper, less stress, and more time to spend on the things (and people) that matter most.

The Zones of Regulation Leah M. Kuypers,2011 ... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called zones, with each of four zones represented by a different color. In the activities, students also learn how to use strategies or

tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD.--Publisher's website.

Same Journey Different Paths, Stories of Auditory Processing Disorder Various Authors,2013-05-28 Same Journey, Different Paths is a wonderfully comprehensive book written by parents and individuals with Auditory Processing Disorder

(APD). By sharing their stories and experiences, other parents and individuals with APD understand they are not alone. The authors of the book live all over the world, and found each other on social media sites, while looking for answers during their times of struggle. Through this connection, they started talking to one another, sharing advice, telling their stories, and developed relationships with one another. They now have a group of supportive people who can share in their unique experiences, help guide them through the process of getting help, and provide emotional support during those very difficult moments. Same Journey, Different Paths takes you into the life of each of these individuals, and helps you to understand the struggles encountered when trying to discover and cope with APD. The book also provides an in depth look into what Auditory Processing disorder is, including symptoms, causes, effects, getting a diagnosis, and treatments. It includes resources for obtaining more information, and a glossary of terms. Auditory Processing Disorder (APD) is considered a hidden disorder, which is difficult to diagnose, and is often mistaken for something else. The literature and resources for someone with APD are minimal, which contributes to one feeling alone on their journey through discovery and treatment. The authors of Same Journey, Different Paths have combined their stories in this book so that others can learn through their experiences, and get the help they need to be successful in school and in life. Join these remarkable people on their journeys of living with Auditory Processing Disorder.

A Volcano in My Tummy Eliane Whitehouse, Warwick Pudney, 1996-01-01 A Volcano in My Tummy: Helping Children to Handle Anger presents a clear and effective approach to helping children and adults alike understand and deal constructively with children's anger. Using easy to understand yet rarely taught skills for anger management, including how to teach communication of emotions, A Volcano in My Tummy offers engaging, well-organized activities which help to overcome the fear of children's anger which many adult care-givers experience. By carefully distinguishing between anger the feeling, and violence the behavior, this accessible little book, primarily created for ages 6 to thirteen, helps to create an awareness of anger, enabling children to relate creatively and harmoniously at critical stages in their development. Through activities, stories, articles, and games designed to allow a multi-subject, developmental approach to the topic at home and in school, A Volcano in My Tummy gives us the tools we need to put aside our problems with this all-too-often destructive emotion, and to have fun while we're at it. Elaine Whitehouse is a teacher, family court and private psychotherapist, mother of two and leader of parenting skills workshops for eight years. Warwick Pudney is a teacher and counsellor with ten years experience facilitating anger management, abuser therapy and men's change groups, as well as being a father of three. Both regularly conduct workshops.
