Keeping Illegal Activity Out of Rental Property, 2000

To Cook a Continent Nnimmo Bassey, 2012 Arguing that the climate crisis confronting the world today is rooted mainly in the wealthy economies' abuse of fossil fuels, indigenous forests, and global commercial agriculture, this important book investigates how Africa has been exploited and how Africans should respond for the good of all. As it examines the oil industry in Africa and probes the causes of global warming, this record warns of its insidious impacts and explores false solutions. Demonstrating that the issues around natural resource exploitation, corporate profiteering, and climate change must be considered together if the planet is to be saved, the book suggests how Africa can overcome the crises of environment and global warming.

Inclusive Businesses in Agriculture Wytske Chamberlain, Ward Anseeuw, 2017-03-30 ÿ Inclusive business is hailed as a

win-win scenario for the development of poor communities; yet there is little insight into how these inclusive businesses work and, more importantly, for whom. This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining: the structures they implement, the actors involved, and whether they are effectively inclusive of smallholders. It presents a range of case studies and is therefore empirically based and practically oriented. By offering a critical assessment of inclusive businesses overall, it allows for a better perception of what works where, and under which conditions. It provides useful insights that will benefit smallholders, agri-businesses, support groups, policy makers and investors who are willing to promote more inclusive businesses, that foster a better integration of smallholders into commercial value-chains and a more equitable and sustainable agricultural sector.

Good Strategy Bad Strategy Richard Rumelt, 2011-07-19 Good Strategy/Bad Strategy clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In Good Strategy/Bad Strategy, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007-08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, Good Strategy/Bad Strategy stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.

Law and the Rise of Capitalism Michael Tigar, 2000-06 Tigar (Washington College of Law, American U.) has written a new introduction and extended afterword that update this Marxist analysis of law and jurisprudence, originally published in 1977. The study traces the role of law and lawyers in the rise of the European bourgeoisie. The new material discusses human rights issues and social movements over the past two decades, including political prisoners and the death penalty. c.

The Kingdom of Swaziland D. Hugh Gillis, 1999-03-30 A scholarly and engaging study, this history of Swaziland, by an author who spent many years in the kingdom, presents a vivid account of the interplay of politics and personalities along the passage to post-colonial independence. From the early stages of Swazi occupation of the present-day kingdom to the accession of Sobhuza II as king in 1921, this book traces problems in consolidating leadership under the Dlamini chieftaincy and examines the influence of Boer and British settlers, and of mining and commercial interests, on Swazi culture and governance. It recounts the story of a thriving small nation that sought to maintain traditional customs and institutions in the face of a powerful European presence. Each of the sixteen chapters concentrates on an aspect of political history that has influenced the character of the present-day kingdom, and much of the material, especially after 1900, has not been utilized in previous studies. The introduction looks at Swazi experience in a contemporary context, evaluating historic forces that have made for stability in a rapidly changing world. Other sections detail the Swazi reaction to European-controlled neighboring states (the Transvaal, Natal, and Mozambique), the tensions introduced by successive Boer and British policies, the Swazi detachment during two external wars (1899-1902 and 1914-1918), and widespread concerns about colonialism and self-governance following World War I.

The Rice Economy of Asia Randolph Barker, Robert W. Herdt, Beth Rose, 1985 The purpose of this book is to present a comprehensive picture of the role of rice in the food and agricultural sectors of Asian nations.

The Land Governance Assessment Framework Klaus Deininger, Harris Selod, Anthony Burns, 2012 Increased global demand for land posits the need for well-designed country-level land policies to protect long-held rights, facilitate land access and address any constraints that land policy may pose for broader growth. While the implementation of land reforms can be a lengthy process, the need to swiftly identify key land policy challenges and devise responses that allow the monitoring of progress, in a way that minimizes conflicts and supports broader development goals, is clear. The Land Governance Assessment Framework (LGAF) makes a substantive contribution to the land sector by providing a quick and innovative tool to monitor land governance at the country level. The LGAF offers a comprehensive diagnostic tool that covers five main areas for policy intervention: Legal and institutional framework; Land use planning, management and taxation; Management of public land; Public provision of land information; and Dispute resolution and conflict management. The LGAF assesses these areas through a set of detailed indicators that are rated on a scale of pre-coded statements (from lack of good governance to good practice). While land governance can be highly technical in nature and tends to be addressed in a partial and sporadic manner, the LGAF posits a tool for a comprehensive assessment, taking into account the broad range of issues that land governance encompasses, while enabling those unfamiliar with land to grasp its full complexity. The LGAF will make it

possible for policymakers to make sense of the technical levels of the land sector, benchmark governance, identify areas that require further attention and monitor progress. It is intended to assist countries in prioritizing reforms in the land sector by providing a holistic diagnostic review that can inform policy dialogue in a clear and targeted manner. In addition to presenting the LGAF tool, this book includes detailed case studies on its implementation in five selected countries: Peru, the Kyrgyz Republic, Ethiopia, Indonesia and Tanzania.
